

ZMORPH FAB

All-in-One 3D Printer

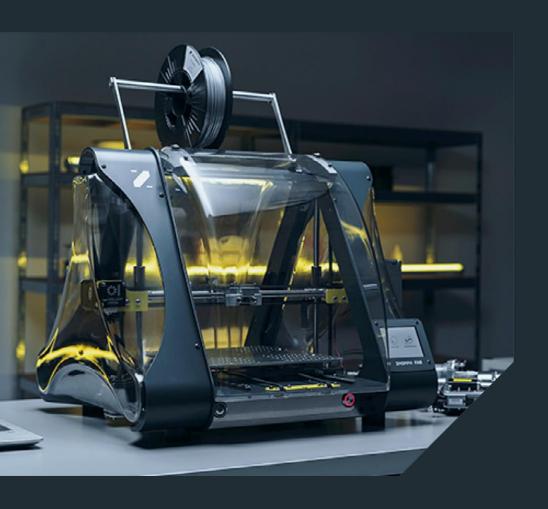

DISCOVER ZMORPH FAB

The Most Advanced All-in-One 3D Printer, Yet

Three Tools in One Device for Learning and Prototyping

3D PRINTING

CNC MILLING

LASER CUTTING & ENGRAVING

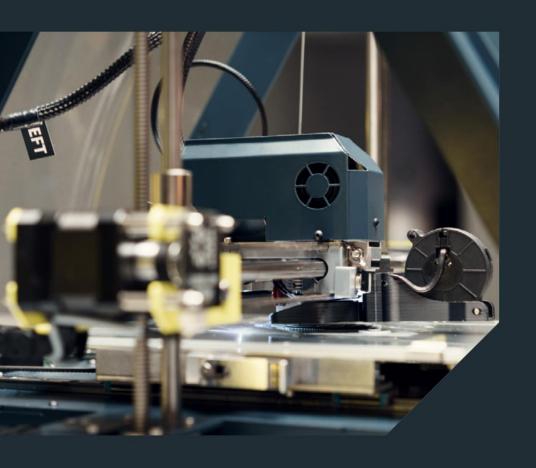

Turn your desk into a workshop with Zmorph Fab All-in-One 3D Printer.

The interchangeable toolheads system and a wide variety of compatible materials make it the most versatile desktop 3D printer on the market.

Read further to learn about all its features and functions.

3

Hassle-Free 3D Printing

3D PRINTING

- The new Single Extruder Toolhead features filament sensor for easier maintenance, and improved airflow for faster overhangs
 3D printing.
- O2 Autocalibration makes 3D printing easy and fast, even for beginners.
- Super-flat borosilicate 3D printing bed heats up to 115°C, which improves the first layer adhesion in more advanced materials such as ABS or TPE.
- O4 Zmorph Fab works with almost every plastic filament available on the market. Multi-material capabilities let you 3D print with water-soluble supports.

Precise CNC Milling for Professionals

CNC MILLING

- Heavy-duty aluminum plates provide amazing rigidity and keep electronics safe from dust and leftovers from CNC machining.
- The sturdy construction is designed to deliver both 3D printing and withstand CNC operations.
- Reinforced Cartesian XZ-head motion system doubled up with dual glass-fiber-reinforced belts.
- O4 Support for a wide variety of engineering materials wood, composites, soft plastics, even soft metals.
- The all-new CNC worktable offers a convenient materials mounting system, great stability, and is open for custom user designs.

Clean Laser Cuts and Engravings

LASER ENGRAVING AND CUTTING

- 2.8 W blue laser diode.
- 102 Light and compact design with CNC-cut aluminum body.
- Easy to use, especially with the all-new CNC worktable. Safely set up materials of different dimensions and thickness with the new mounting system.
- O4 Great toolhead for in-house PCBs production.
- Use the laser workflow for art, decorations, educational materials, signage, and customization.

Lots of Reasons in One Device

CNC Environment

Zmorph Fab is equipped with a professional CNC worktable with a simple solution for materials mounting. The software features CAM-standard workflow for CNC procedures with STEP operations, ability to change the tool within one G-code, and path visualisation.

Seamless UI

Accessible and intuitive user interface is designed for both professionals and first-timers. Effortlessly maneuver through the menu.

Voxelizer

The all-in-one software for 3D printing, CNC milling, and laser engraving and cutting. Voxelizer has an optimized workflow for Zmorph 3D printers ensuring the best and fastest results.

SMART Toolheads

Changing workflows in Zmorph Fab is fast and easy with the automatic toolhead detection. Switching tools takes just a few easy steps and no more than a minute.

Quiet Work

Behind the quiet work stands the design of the 3D printer enhanced by high-quality electronics and carefully programmed drivers.

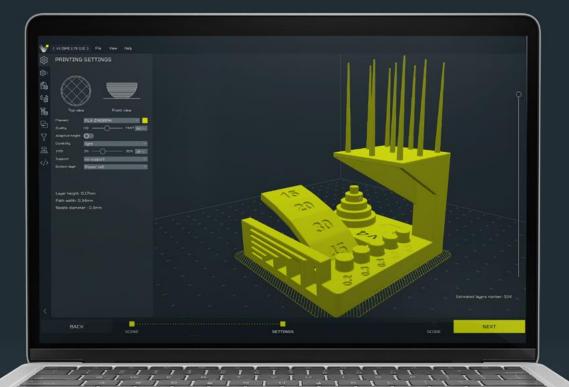

Air Filtration

Removable Carbon/HEPA filters disintegrate semitoxic fumes and particles released by melted filaments during 3D printing and during laser engraving. Zmorph Fab will let you know when the filters need to be changed.

Voxelizer Software

Get the most out of Zmorph Fab with the dedicated slicing software.

Voxelizer covers all workflows available in Zmorph All-in-One 3D Printers in one software.

Use materials presets for Zmorph Fab or make your own.

Work with upgraded CAMstandard CNC workflow with STEP operations, ability to change the tool within one G-code, and path visualisation.

Control your designs with local settings and advanced support structures.

GET VOXELIZER

Materials

Zmorph Fab opens unlimited possibilities unavailable for single-purpose 3D printers. Choose from over 50 materials like plastic filaments for 3D printing, soft metals for CNC milling, and textile materials for laser engraving. Zmorph Fab can do it all.

WEIGHT AND PHYSICAL DIMENSIONS

| Printer without a spool holder | 520 x 500 x 450 [mm] |
|---|----------------------|
| Printer with a spool holder | 520 x 500 x 570 [mm] |
| Printer with a HEPA filter | 570 x 500 x 570 [mm] |
| Dimensions of the transport box | 600 x 600 x 570 [mm] |
| Full set weight | 28.70[kg] |
| Printer weight | 14.45[kg] |
| Single Extruder Toolhead 1.75 weight | 0.70[kg] |
| Dual Extruder Toolhead | 1.00[kg] |
| CNC Milling Toolhead | 0.90[kg] |
| Laser Toolhead | 0.32[kg] |
| Thick Paste Extruder Toolhead | 0.60[kg] |
| | |

ELECTRICAL PARAMETERS

| AC Input | 100 [VAC] ~ 4 [A] 50/60 [Hz] 240 [VAC] ~ 2 [A] 50/60 [Hz] |
|------------------------|--|
| | 240 [VAC] ** 2 [A] 30/00 [112] |
| Maximum Power | |
| Consumption | 350 [W] |
| Power Consumption with | |
| single-head extruder | 220 [W] |
| Power Consumption with | |
| Dual-head extruder | 230 [W] |
| Power Consumption with | |
| CNC toolhead | 330 [W] |
| Power Consumption with | |
| Laser toolhead | 80 [W] |
| | |

SOFTWARE

| Software Bundle | Voxelizer |
|--------------------------------|--|
| Supported File Types | .stl, .obj, .step, .dxf, .png, .bmp |
| Supported Operating Systems | Windows 7/10 (64 bit) or higher macOS 10.13 or higher |

FILTRATION PARAMETERS

| Filter type | HEPA/Carbon |
|--------------------------|-------------------|
| Ventilation power | 1.54 [W] |
| Filter dimensions | 80 x 80 x 25 [mm] |
| Filter system dimensions | 85 x 85 x 50 [mm] |
| Filtration control | Temperature |

TEMPERATURE PARAMETERS

| Ambient Operation Temperature | 15 ~ 30[°C] |
|-------------------------------|--------------|
| Storage Temperature | -10 ~ 40[°C] |
